

Monday, February 2, 2026

07:30-09:00	Breakfast	
09:00-09:15	Welcome by the Organizers by <i>Pierre Marquis, Kenji Hashimoto, Johannes Fichte</i>	Johannes Fichte
09:15-10:15	Introduction by the Participants by — <i>The Participants</i> —	(2 minutes each)
10:15-10:45	Tea	
10:45-11:15	Short Tutorial: Basics in Counting Complexity by <i>Heribert Vollmer</i>	
11:30-13:30	Lunch	
13:30-14:30	Tutorial: Practical Knowledge Compilation by <i>Jean-Marie Lagniez</i>	Chair (tbd)
14:30-15:00	Model Counting at ESA (European Space Agency) by <i>Max Bannach</i>	
15:00-16:00	Tea	
16:00-16:30	Counting and Planning by <i>Daniel Gnad</i>	Chair (tbd)
16:30-17:30	Open Problem Session — Suggesting Open Problems —	Chair (tbd)
18:00-20:00	Dinner	

Tuesday, February 3, 2026 –

07:30-09:00	Breakfast	
09:00-10:00	Tutorial: Proof Complexity & Counting by <i>Olaf Beyersdorff</i>	Pierre Marquis
10:00-10:45	Tea	
10:45-11:15	Proof Systems That Tightly Characterise Model Counting Algorithms by <i>Tim Hoffmann</i>	
11:30-13:30	Lunch	
13:30-14:15	Short Tutorial: Approximate Model Counting by <i>Kuldeep Meel</i>	Kenji Hashimoto
14:15-14:45	Message Passing Algorithms for Computation of Error in Probabilistic and Approximate Circuits by <i>Vinita Vasudevan</i>	
14:45-15:00	Preparing Groups for the Breakout Session	Groups
15:00-16:00	Tea	
16:00-16:30	Counting Beyond SAT: Quantification in SMT by <i>Arijit Shaw</i>	
16:30-18:00	Breakout Session by <i>—Participants—</i>	Groups
18:00-20:00	Dinner	

Wednesday, February 4, 2026 –

07:30–09:00 **Breakfast**09:00–09:30 **Sometimes Counting Is Not Enough: Why Model Enumeration Matters**
by *Giuseppe Spallitta*

Max Bannach

09:30–10:00 **Efficient Enumeration on Circuits**
by *Heribert Vollmer*10:00–10:45 **Tea**10:45–11:15 **Parameterized Enumeration**
by *Arne Meier*

Johannes Fichte

11:15–11:30 **Group Photo**
— *All Participants* —11:30–13:30 **Lunch**14:00–18:00 **Excursion to Kamakura**
— *Visiting Jomyoji and Hokokuji temple with Japanese Tea ceremony* —18:00–20:00 **Dinner**

Thursday, February 5, 2026 –

07:30-09:00	Breakfast	
09:00-09:30	The Return of Symmetry-Driven Compilation Languages by <i>Alexis de Colnet</i>	Chair (tbd)
09:30-10:00	The Model Counting Competition by <i>Johannes Fichte</i>	
10:00-10:45	Tea	
10:45-11:15	Simulation and Verification of Quantum Circuits by <i>tbd</i>	Chair (tbd)
11:30-13:30	Lunch	
13:30-14:00	Fine Grained Counting Complexity by <i>Markus Hecher</i>	Johannes Fichte
13:30-14:00	Talk (tbd) by <i>tbd</i>	
15:00-16:00	Tea	
16:00-18:00	Breakout Session by — <i>Participants</i> —	Groups
18:00-20:00	Dinner	

Friday, February 6, 2026 –

07:30–09:00 **Breakfast**09:00–10:00 **Outcomes and Follow Ups**
by — *all Participants* —

Johannes Fichte

10:00–10:45 **Tea**10:45–11:30 **Final Discussions**
by — *all Participants* —

Chair (tbd)

11:30–11:45 **Closing**
by *Pierre Marquis, Kenji Hashimoto, Johannes Fichte*

Chair (tbd)

11:30–13:30 **Lunch**
